Patients' Rights Outpatient Grievance Process

Effective Date: 02/11/1992
Revision Date: 05/13/2016

CaSonya Thomas, Director

Purpose

To provide a process by which outpatient clients of Department of Behavioral Health (DBH) may initiate a grievance if they believe their patient's rights (see Patient's Right Policy) have been violated.

The Patients' Rights Office, upon receipt of a grievance, investigates alleged patient's rights violations from or concerning recipients of outpatient mental health services rendered by providers of the San Bernardino County Mental Health Plan.

Filing a Grievance

A grievance may be made by a client via face-to-face report, mail or phone. Clients may complete Patients' Rights Grievance Form – (Spanish) and Authorization to Release Protected Health Information – (Spanish). These forms are available in both English and Spanish. Once a grievance has been received and screened, Patients' Rights will:

- Contact the client via phone and/or
- Mail acknowledgement letter and Releases of Protected Health Information (PHI) to be completed and returned by the client to the Patients' Rights Office.

Customer Service

If the grievance does not identify a patient's rights issue but does express dissatisfaction with outpatient services, it will be referred to the Access Unit for processing and client(s) will be advised accordingly.

Authorized Representative

In most cases, Patients' Rights will not open a grievance based on third party reports. Upon initiation of a grievance, the client may assign an Authorized Representative for the remainder of the grievance process.

Grievance Investigation

Patients' Rights will investigate the grievance and make every effort to keep the client informed of progress during the course of the investigation.

Grievance Resolution

Patients' Rights will inform clients at the conclusion of the investigation verbally and/or in writing.
