County of San Bernardino
Department of Behavioral Health

Disaster and Mass Casualty Policy

Effective Date 6/84
Revision Date 6/15/07

Policy

It is the policy of the Department of Behavioral Health (DBH) to designate authority and responsibility to specific employees to activate the Department Emergency Operations Plan (EOP) to respond to disasters and other mass casualties within DBH.

Note: Each DBH facility must also maintain a site-specific disaster plan.

Purpose

To establish a designated flow of authority and direction in the event of a disaster and/or mass casualty.

Definitions

Disaster: an occurrence causing widespread destruction and emotional distress; a disaster may be the result of a man-made or natural cause (i.e. flood, earthquake, hazardous spill, terrorist attack, etc.).

Mass Casualty: a large loss in numerical strengths by any cause, such as: wide-spread death, injury, illness, mass evacuation, etc.

Designated Authority

The Director of DBH or designee has the authority to implement the Department EOP. If the disaster is not limited to DBH facilities, Government Code Section 3100 grants the Board of Supervisors or designee the authority to activate the county-wide disaster plan.

Chain of command flows from the Department Director to the Assistant Director, and then to the Deputy Directors and Program Managers. The Disaster/Safety Coordinator acts as an advisor on disaster-specific responses based on damage assessment information.
