WORKSHOP DISCUSSION

Mr. Cothran introduced this new section of the Agenda, noting that it is designed to allow Committee Members to obtain feedback from the public, should the Chair determine it would be beneficial.

6) Supply and Demand for Positions in the Logistics Industry
   Curtis Compton led the discussion surrounding the need to hire individuals in the Logistics industry, particularly Class A drivers, which are in high demand according to local job postings. Ms. Hazlett noted there are 40,000 openings in the truck driving industry and a 10% unemployment rate for returning veterans. She asked the committee to think about other industries we can extend to these military individuals, (i.e., Diesel Mechanics, etc.). Also noted, was the knowledge test is waived for military members, as they had training while in the service. Mr. Patterson stated that military members have extensive experience driving these larger vehicles and their experience does not currently count towards their licensing requirements. Mr. Compton also looked to the Committees for ideas on how to bridge military personnel into the workforce, once they are discharged from the service.

   Staff at the America’s Job Centers of California have been taking tours at local Logistic businesses and have noted that Material Handlers are beginning to be less in demand, due to automation. Mr. Compton noted that Frito Lay had made a large expansion in Rancho Cucamonga and the building was very tall due to the robotics they utilize in their warehouse. New hires are also able to garner a larger hourly wage (closer to $17/hr vs. $13-$14/hr, which is typical in the industry for Material Handlers.

   Mr. Cothran excused himself from the meeting at 11:30 a.m.
   Mr. Myrell stepped in as Acting Chair at 11:30 a.m.

7) Asset Mapping
   Curtis Compton gave an overview of this workshop discussion and the Committee members and Public offered suggestions for the different categories they would like to see on the Asset Map. Ms. Tuckerman inquired about the existence of any similar reports that may exist within the Economic Development Department, which will require additional research.

PRESENTATION

8) SlingShot Industry Sector Consultants
   Stephanie Murillo presented an overview of SlingShot, which is an Inland Empire Regional Collaboration. It is a regional effort that connect industry leaders to workforce and education in a new way, allowing industry to lead the charge and implement projects that move the needle on income mobility, by focusing on industry growth (for Healthcare and Manufacturing) in the Inland Empire. A steering committee made up of individuals from San Bernardino County and Riverside County Workforce Development Boards oversee the project. Two consultants were hired for this collaborative effort and Ms. Murillo introduced both Ron Hurst, who represents the Manufacturing industry and Jennifer Silvestri, who represents the Healthcare industry.

   Mr. Hurst, who is on contract until 2020, has been connecting with organizations and businesses to identify training program needs. Specifically, he looks for skill gaps that may exist within the Manufacturing industry. He noted that one of their objectives is to understand the context of Manufacturing. A Gap analysis was conducted to determine which segments were growing. In San Bernardino County, steel, plastics, wood and concrete are a few of the industries that are active. Mrs. Tuckerman requested a date for this report and Mr. Hurst stated a meeting will take place on November 9, 2017 and there should be information provided regarding the main skill gaps that currently exist.
Ms. Silvestri is currently the liaison between Workforce Development and the Healthcare industry. Their goal is how to best utilize SlingShot resources to help individuals in the medical field, as it pertains to training. Ms. Silvestri discussed the training needs of local hospitals and other facilities, as well as the recent efforts for developing community health worker training curriculums and maximizing feedback from the industry to develop future training.
