HMIS Data Quality Report Card

Sample Reporting Period 10/1/2016 to 02/28/2017

PROGRAM INFORMATION

Agency Name: **Knowledge & Education For Your Success**

Program: **KEY CoC KEYS For Life (RR-H)**

Data Quality and Completeness

Complete and accurate records are required to ensure data quality. Required Data that is missing or not collected has a negative impact on the quality of data. The higher a programs' percentage of missing or erroneous data, the less useful the data becomes.

Demographic Data — Total Enrolled 10

	# Missing	% Missing
First Name	0	0.00%
Last Name	0	0.00%
SSN	0	0.00%
Date of Birth	0	0.00%
Race	0	0.00%
Ethnicity	0	0.00%
Gender	0	0.00%
Veteran Status	0	0.00%
Disabling Condition	0	0.00%
Relationship to HOH	0	0.00%
Client location	0	0.00%
Approximate date started	0	0.00%
Number of months homeless	0	0.00%
Number of times Homeless in last 3 years	0	0.00%
Prior Residence	0	0.00%

Fields with values over 5% errors.

Fields with values 5% or less.

0.00% Fields with no errors.

Missing data would include "Data Not Collected" or other invalid responses. A program should have less than a 5% missing field rate in order to ensure accurate data. Missing intake and exit data needs to be reviewed by staff on a regular basis. Any additional Universal Data Element information received from the client should be entered into the Homeless Management Information System (HMIS) within a timely manner.

HUD Policy: A 95% standard of completeness rate for all funded homeless projects should be established and expected. Programs should work toward ensuring that 95% of all required data elements for each client served are collected and entered correctly into the HMIS.

Data Timeliness Report

Type	0 days	1-3 days	4-6 days	7-10 days	Over 10 days	Average
Enrollment Timeliness			3	6	1	9.2
Exit Timeliness						

This report calculates the difference between the program entry date specified for the client and the date the client's application was entered into the system. For example, if a client's Program Entry date of "April 4, 2016" was recorded on "April 9, 2016," then the report would calculate a 5 day lag time in recording data. The report groups the number of applications by program and has 5 buckets for the number of days an application has been lagging.

HUD Policy: Data entry should be current within 5 business days of intake, exit, and service provision.
