Missing data includes responses such as: "Don't Know," "Refused," "Unknown," and invalid responses. A program should have less than 5% missing field rate in order to ensure accurate data. Missing intake and exit data needs to be reviewed by staff on a regular basis and any additional Universal Data Element information received from the consumer after intake should be entered into HMIS.

Report Name: Data Timeliness Report

Program	1 - 7 days	8 - 14 days	15 - 21 days	22 - 30 days	31 - 60 days	61 - 90 days	over 90 days
DMM Food Bank	149	4	4	15	16	0	0

This report calculates the difference between the program entry date specified for the client and the date the client's application was entered into the system. For example, if a client's Program Entry date of "April 4, 2010" was recorded on April 9, 2010, then the report would calculate a 5 day lag time in recording data. The report groups the number of applications by program and has 7 buckets for the number of days an application has been lagging.

HMIS Users:

Below is a list of all HMIS Users at your agency. Please make sure that active users have logged in within the past month. If any user on this list has left your agency during the last reporting period, then please email the HMIS helpdesk. Users are considered inactive if they have not logged into the system for 30 days or left the agency. If a user is inactive, or if you have additional staff needing HMIS access or training, please contact HMIS.
