In September 2007, the San Bernardino County Homeless Partnership (SBCHP) was formed to provide a more focused approach to our goal of ending homelessness within the County. The Partnership consists of city governments, community based organizations, faith-based organizations, educational institutes, non-profit organizations, private industry, and federal, state, and local government.

SBCHP was developed to promote a strong collaboration between agencies to direct the planning, development, and implementation of the County's 10-year-plan to end chronic homelessness. The Partnership meets on the third Wednesday of each month at the Behavioral Health Resource Center in Rialto. The Partnership facilitates better communication, planning, coordination, and cooperation among all entities that provide services and/or resources for the relief of homelessness in San Bernardino County.

PRESENTATIONS		
Homeless to Housed	Dr. Renee Keres	<ul style="list-style-type: none"> <li>▪ The Homeless Outreach Support Team formed in 2014 prior to CES. There was a lot of outreach to those that met the criteria and get them into housing. Things have changed and now HOST works in conjunction with CES and the Housing Authority to house clients. Strategic planning is coming up where everyone in the county makes decisions as a collective whole and DBH is looking at how they serve the community. They work with mental health and substance abuse and they are still doing outreach and engagement. Many have been disconnected from communities and services and may not have the insight of their own illness. It can take several encounters before they are engaged and open to receiving services. When they first meet folks they get them into the CES and if Housing Authority has a voucher for permanent supportive housing they are referred and assessed and then they help them get the documents needed to be housed such as California ID, social security, income information and homeless verification. That process could take about 90 days from the time they 1<sup>st</sup> engage with them. After that they go through the Housing Authority process and then housing search. The housing search process includes negotiating what is available at the price and limitations they have. It takes an average of 190 days from start to being housed for a variety of reasons. When engaging with people who are homeless they don't always move very fast and there have been changes made to processes to speed things up.</li> </ul>

		Client have a choice so they may need to go through numerous places before they can be housed in a desired area.
