PROGRAM INFORMATION

Agency Name: **Step Up on Second Street, Inc.**

Type	0 days	1-3 days	4-5 days	Over 5 days	Average
Entry Timeliness	0	0	0	512	321.62
Exit Timeliness	109	20	5	46	8.54

This report calculates the difference between the program entry date specified for the client and the date the client's application was entered into the system. For example, if a client's Program Entry date of "April 4, 2016" was recorded on "April 9, 2016," then the report would calculate a 5-day lag time in recording data. The report groups the number of applications by program and has 5 buckets for the number of days an application has been lagging.

HUD Policy: Data entry should be current within 5 business days of intake, exit, and service provision.
