

# Authorization to Release Protected Health Information (PHI) Procedure

**Effective Date** 04/2003  
**Revised Date** 10/01/2020

  
Veronica Kelley, DSW, LCSW, Director

**Purpose**

The purpose of this procedure is to provide operational guidance to the Department of Behavioral Health (DBH) workforce to adequately obtain and complete a valid [Authorization to Release Protected Health Information \(PHI\) \(Authorization\)](#) form and release of medical records for mental health and substance use disorder services (SUD) according to applicable requirements, laws and regulations, as referenced in the Policy.

**Procedure to Release Mental Health PHI**

When a client, client representative or third party requestor requires access to medical records, a written Authorization is required prior to release.

The following table describes the appropriate steps for disclosing mental health medical records:

Step	Action
1	The client, client's legal representative, or a third party requests DBH medical records.
2	DBH clinic or Medical Records staff assists with responding to request. This will include determining if the request is from the client, client's legal representative or third party requestor.  If the requestor is at a DBH clinic and the medical record is closed, the clinic is responsible for assisting the client in completing the Authorization form and forwarding to Medical Records for processing ( <a href="mailto:DBH-medicalrecords@dbh.sbcounty.gov">DBH-medicalrecords@dbh.sbcounty.gov</a> ).
