Effective Date 4/18/07
Revision Date 5/2/07

Allan Rawland, Director

Purpose To inform Department of Behavioral Health staff of the requirement for an Annual Program Review as required by the State Department of Mental Health.

Background The Substance Abuse and Mental Health Services Administration (SAMHSA) Block Grants are federally awarded monies allocated to establish or expand community-based systems of care. The community-based systems of care must provide mental health services to adults with serious mental illness (SMI) and children with serious emotional disturbances (SED).

The Department of Mental Health (DMH) allocates the Block Grant to counties, who as sub-recipients, must comply with specific requirements. The Annual Program Review is designed as a means to responsibly monitor sub-recipient's activities and provide reasonable assurance that the sub-recipient administrators remain in compliance with Federal requirements.

**Annual
Program
Review
Process**

The Process for the Annual Program Review is as follows:

- Each sub-recipient must partake in an annual review during the same Federal Fiscal Year that monies are received. The annual review will comprise of a formal visit to the sub-recipient agency and an assessment of compliance as outlined against the SAMHSA- [Mental Health and Alcohol and Drug Services Agency Evaluation](#).
 - Following the initial audit, the sub-recipient will receive a copy of the audit tool and report results. Should the audit find areas needing improvement or issues of noncompliance, the sub-recipient will be required to propose corrective remediation along with proposed dates of correction.
 - The Department of Behavioral Health will then follow-up to verify that corrections have been made.
-
