## ABOUT THE DEPARTMENT

### **THE DEPARTMENT OF BEHAVIORAL HEALTH**

(DBH) provides mental health and substance use disorder services to county residents who are experiencing major mental illnesses or substance abuse issues. DBH provides culturally and linguistically appropriate mental health/substance use disorder treatment to all age groups, with a primary emphasis placed on treating children/youth who may be seriously emotionally disturbed, adults who are experiencing a serious and persistent mental illness, and individuals who are experiencing substance use disorders. DBH also provides an array of prevention and early intervention services for both mental health and substance abuse.

DBH programs strive to be recognized as a progressive system of seamless, accessible and effective services that promote wellness, recovery and resiliency for individuals, families and communities.

## From the **DIRECTOR**

The Services Guide is a resource to find mental health and substance use disorder services in San Bernardino County.

These services support children, youth, adults and older adults who are experiencing a severe and persistent mental illness and are uninsured or on Medi-Cal, and youth, adults and older adults with a substance use disorder.

Thank you for using this guide to learn about behavioral health services for yourself, a family member or a friend, and thank you for supporting wellness, recovery and resilience in our community.
