Behavioral Health

Behavioral Health is a part of the overall health care system. It is the study of the mind and its connection to the body. Behavioral health professionals help people understand and manage their mental and emotional health. They work with individuals, families, and communities to improve their overall well-being. Behavioral health services are available through various settings, including hospitals, community health centers, and private practices. If you are experiencing mental health concerns, please reach out to a behavioral health professional for support and guidance.

San Bernardino County Behavioral Health is committed to providing high-quality, evidence-based services to our community. We offer a range of services, including individual and group therapy, crisis intervention, and case management. Our goal is to help our clients achieve their full potential and live healthy, fulfilling lives. For more information about our services, please visit our website or contact us at (909) 387-1234.
