Where to Look…

A Guide to navigating the County Integrated Plan

QUICK TIP: To locate the San Bernardino County Integrated Plan, please visit the San Bernardino County/DBH website at: https://wp.sbcounty.gov/dbh/programs/bhsa. Once there, scroll down and click on: Click Here for the Final BHSA Integrated Plan. Once in the Plan, utilize CTRL+F (Windows) or COMMAND+F (Mac) to search for each bolded topic and review the information you are looking for.

Where does the county's money come from, and what does it fund?	**County Behavioral Health System Service Delivery Landscape** This section provides a full accounting of the county's behavioral health funding streams and explains how each funding source is used.
How is the county addressing the six mandatory statewide goals?	**Statewide Behavioral Health Goals** This section describes the county's plan for each statewide goal, including outcome measures, data systems, disparities analysis, and related strategies. To locate a specific goal, also search for its heading: Access to Care, Homelessness, Institutionalization, Justice-Involvement, Removal of Children from Home, or Untreated Behavioral Health Conditions.
What metrics are being used to track success?	**Population-Level Behavioral Health Measures** Under each statewide goal, these headings identify the actual data points used to measure progress, such as inpatient administrative days, Point-in-Time homelessness counts, and arrest rates.
Which programs is the county using to achieve each goal?	**Cross-Measure Questions** Under each statewide goal, this heading contains the county's narrative explaining what it will strengthen or newly implement beginning July 1, 2026, based on the data.
Which additional goal did the county select?	**County-Selected Statewide Population Behavioral Health Goals** This section identifies at least one additional population behavioral health goal selected by the county where its performance is below the statewide average.
What is funded under the three main BHSA categories?	**Behavioral Health Services Act/Fund Programs** This section includes subsections for the three primary funding categories: Behavioral Health Services and Supports (BHSS), Full-Service Partnership Program, and Housing Interventions. These sections usually appear back-to-back in that order.
How does the county plan to reduce hospitalization and incarceration? *	**Full-Service Partnership Program** This section covers Full-Service Partnership models and evidence-based practices, including ACT, FACT and its forensic application for justice-involved clients, Intensive Case Management, High Fidelity Wraparound, and Individual Placement and Support. It also includes eligible population estimates and staffing plans.

How does the county plan to reduce homelessness? *	**Housing Interventions or BHSA Housing Interventions Implementation** These sections contain the county's gap analysis across 20 housing intervention types and a detailed accounting of rental subsidies, operating subsidies, landlord outreach funds, and capital development projects.
How is the county strengthening its workforce? *	**Workforce, Education, and Training (WET) Program** The WET Program subsection under Behavioral Health Services and Supports (BHSS) describes specific workforce programs funded through BHSA. The Workforce Strategy section provides the county's workforce capacity self-assessment and explains how the county plans to leverage the state's BH-CONNECT workforce programs.
Is the county piloting anything new?	**Behavioral Health Services Fund: Innovative Behavioral Health Pilots and Projects** This optional section describes new programs the county plans to test or implement. It can also show where the county has identified gaps in its existing behavioral health system.

** These sections may also address other statewide goals. The listed question highlights one major connection.*
