

FRIDAY NIGHT LIVE YOUTH IN ACTION!

In This Issue:

Safe and Sober Activities
Active Youth Conference
FNL & CL Activities

Safe and Sober 2019

A.B. Miller High School Friday Night Live (FNL) students in partnership with the San Bernardino County FNL program organized and hosted a Safe and Sober Kick-off event to promote awareness of the dangers of underage drinking and driving or getting into a vehicle with a driver who is under the influence during prom and graduation. Eleven FNL chapters from San Bernardino County attended this event. Other community organizations that were present to provide more information about teen safety included San Bernardino County Department of Public Health Local Oral Health & Communicable Disease programs, Planned Parenthood from Orange and San Bernardino Counties, California Health Collaborative, and AT&T. A special thank you to all in attendance!

Active Youth Conference

Friday Night Live Active Youth Conference, hosted by the Riverside County FNL took place this year at Buckhorn Camp in Idyllwild, CA. High school students from San Bernardino, Riverside and San Diego counties attended the event. Students participated in breakout sessions geared toward mental health, skill building and physical health. On breaks students took in the scenery with nature hikes through snow covered paths. Thank you to the staff at Riverside FNL for organizing the event and to all the motivational speakers that presented to our youth. Keep on inspiring!

Don't Be a Bully!

In the month of February, Club Live (CL) students at Woodcrest Junior High in Ontario and Cobalt Institute of Math and Science in Victorville each organized and hosted an anti-bullying lunch activity at their school. The activity was to encourage their peers to pledge against bullying. The CL students at each of the indicated middle schools created a banner where other students could trace their hand and write their name or a slogan inside of it. Students that pledged received a free CL incentive to thank them for their commitment and participation against bullying. The lunch activities were a complete success as numerous pledges were received from students at each school.

Community Talks

Friday Night Live (FNL) students at Citrus Valley High School hosted a SAMHSA Town Hall Meeting to prevent underage drinking among their peers. Students addressed the issue of underage drinking at events such as prom and grad night. Attendees included school officials, student organizations, community partners, and local law enforcement. Topics of

discussion included underage drinking at school events, school policies, and local social host ordinance. Students proposed several ideas to reduce underage drinking among their peers utilizing several media platforms to disseminate a message of being safe and sober. Students will collaborate with clubs on campus and community partners to put their ideas into action. Way to go Blackhawks, keep up the great work!

Arts of Fun!

Students from Operation New Hope, Buena Vista High School, and Oak View High School attended a field trip to California State University San Bernardino. Students were given a presentation on the admission process, a full campus tour, and a private tour of the art department. Students enjoyed the demonstrations of glass blowing and ceramics given by Alison Petty and current graduate students.

Advisor Highlight

The San Bernardino County Friday Night Live partnership would like to recognize *all* of the advisors for your dedication to changing the lives of youth in our communities for the better. Your efforts and commitment make this program thrive. Congratulations on a successful year!
