

TIPS FOR A HEALTHY MOUTH

Brush your teeth **twice a day** with a fluoride (floor-ide) toothpaste and use a soft bristle brush to help **prevent tooth decay**.

Floss in between your teeth at least once a day.

Eat a healthy diet full of fruits, vegetables, whole-grains and drink plenty of water.

Visit the dentist regularly and replace your toothbrush once **every three months**.

Public Health

WHILE YOU ARE PREGNANT...

Your body goes through a lot of changes. Your ***gums might bleed*** more easily and you might be at more risk for cavities.

If you feel too nauseous to brush your teeth, ***rinse your mouth*** out with water or ***use mouth rinse*** that has fluoride.

If something does not feel right with your mouth or teeth, ***don't delay treatment.***

It is ***safe*** to visit the dentist during pregnancy.

Be sure to ***let your dentist know*** you are expecting.

X-rays, dental procedures, and some medications* are safe during pregnancy.

DID YOU KNOW?

Chewing gum that contains ***xylitol*** (zy-lih-tohl) can help prevent tooth decay.

Cavities can spread from parent to child. Avoid sharing toothbrushes, spoons or cups. ***Do not put*** your child's hands or pacifier in your mouth.
