

Temporary Food Facility Event Organizer Checklist

A Temporary Food Facility (TFF) can only operate at community events approved by San Bernardino County Department of Public Health, Environmental Health Services (EHS). It is the responsibility of the Event Organizer to ensure that all TFF Vendors at the event comply with food safety and sanitary requirements enforced by EHS.

An Event Organizer Permit is required for any events where two or more food vendors are present.

The following self-inspection checklist can assist with meeting the necessary requirements.

PRIOR TO THE EVENT
<input type="checkbox"/> Obtain documentation from the city or county agency granting approval for the community event (e.g. city office organizing/sanctioning the event).
<input type="checkbox"/> Ensure all food vendors have a current, valid, unsuspended and unrevoked TFF or Mobile Food Facility (MFF) health permit. Health permits are non-transferable. All vendors must have their health permit readily available at their booth throughout the event.
<input type="checkbox"/> Provide the List of Participants/Vendors. EHS will review it and advise the Event Organizer of any unapproved or unpermitted vendors. If any changes are made to the List of Participants/Vendors, provide EHS with an updated list. Only vendors listed on the approved vendor list will be permitted to operate at the event.
<input type="checkbox"/> Provide permit verification for the approved food facility, if being used to prepare food at the event.
<input type="checkbox"/> Provide potable water supply, approved wastewater disposal site, trash disposal, electricity (if available) and toilet facilities with handwashing stations (within 200 feet of each TFF booth).
DAY OF EVENT
<input type="checkbox"/> No home preparation or storage of food and beverage is allowed. All prepackaged foods will be properly packaged and labeled at an approved facility (excluding cottage food permit).
<input type="checkbox"/> All potentially hazardous foods are kept at 41°F or below or 135°F or above. Hot holding foods held above 45°F and/or leftover foods are discarded at the end of the day.
<input type="checkbox"/> All food preparation (cooking and preparing of food/beverages) for vendors is conducted inside a fully enclosed booth. All cooking equipment other than approved barbeques must be kept inside the approved enclosed booth, unless specifically exempted by EHS. If you are going to be using cooking equipment, consult with the local fire jurisdiction regarding fire code regulations. Approved barbeques must have overhead protection.
<input type="checkbox"/> Provide a pressurized handwashing sink or simplified handwashing setup (i.e. five gallon igloo-type) with warm water, pump style soap, paper towels and a wastewater collection container inside all food/beverage preparation and sampling booths. Wastewater must be contained at all times. Simplified handwashing setups are only allowed for events that last three days or less.
<input type="checkbox"/> Provide a three-compartment warewashing sink for all food/beverage preparation booths. Buckets are not approved compartments for warewashing. Overhead protection is required for all warewashing sinks. Any shared three-compartment warewashing sinks that are provided by the Event Organizer must be maintained by cleaning, refilling and checking sanitizer levels throughout the event. No more than four vendors can use a shared warewashing sink. All warewashing sinks must be supplied with a minimum of 25 gallons of pressurized warm water (minimum of 100°F), unless food preparation is limited, then 15 gallons is required. Wastewater must be contained at all times.

For more information on TFF operating requirements email at TFF@dph.sbcounty.gov, contact EHS at 1-800-442-2283 or visit the EHS website at wp.sbcounty.gov/dph/programs/ehs. The California Retail Food Code (Cal Code) is located on the EHS Program and Services webpage under the Food Facilities section.

EVENT ORGANIZER RESPONSIBILITIES

It is the responsibility of the Event Organizer to ensure that all TFF Vendors at the event comply with food safety and sanitary requirements enforced by EHS.

Prior to Event:

- Obtain documentation from the city or county agency granting approval for the event.
- Provide the List of Participants/Vendors. EHS will review it and advise the Event Organizer of any unapproved or unpermitted vendors. If any changes are made to the List of Participants/Vendors, provide EHS with an updated list. Only vendors listed on the approved vendor list will be permitted to operate at the event.
- Ensure all food vendors have a current, valid, unsuspended and unrevoked TFF or Mobile Food Facility (MFF) Health Permit. Health permits are non-transferable. All vendors must have their health permit readily available at their booth throughout the event.
- Provide permit verification for the approved facility, if preparing food at the event.
- Provide potable water supply, approved wastewater disposal site, trash disposal, electricity (if available) and toilet facilities with handwashing stations (within 200 feet of each TFF booth).

Day of Event:

- No home preparation or storage of food and beverage is allowed. All prepackaged foods will be properly packaged and labeled at an approved facility (excluding cottage food permit).
- All potentially hazardous foods are kept at 41°F or below or 135°F or above. Hot holding foods held above 45°F and/or leftover foods are discarded at the end of the day.
- All food preparation (cooking and preparing of food/beverages) for vendors is conducted inside a fully enclosed booth. All cooking equipment other than approved barbecues must be kept inside the approved enclosed booth, unless specifically exempted by EHS. Contact the local fire jurisdiction where the event is being held regarding applicable fire code requirements.
- Provide a pressurized handwashing sink or simplified handwashing setup (i.e. five gallon igloo-type) with warm water, pumpstyle soap, paper towels and a wastewater collection container inside all food/beverage preparation and sampling booths. Wastewater must be contained at all times.
- Provide a three-compartment warewashing sink for all food/beverage preparation booths. Overhead protection is required for all warewashing sinks. Any shared three-compartment warewashing sinks that are provided by the Event Organizer must be maintained by cleaning, refilling and checking sanitizer levels throughout the event.
